Aedas is one of the world's leading global architecture and design practices.

The company is built on the belief that great design can only be delivered by people with a deep social and cultural understanding of the communities they are designing for.

Aedas global platform for creative excellence in design, enables some of the world's most talented designers to plug into the latest information and delivery systems they need to produce truly world-class design solutions.

The practice's unique structure, global presence, and commitment to cutting-edge R&D are testament to our desire to deliver design excellence to clients wherever they are in the world.

Our Group

Amasia International Design Group provides comprehensive consulting services in architecture, urban, landscape and interior design. We offer an one-stop service from the initial planning stage which includes pre-design support such as feasibility study, development strategy, site selection and evaluation, to the detail design stage and the construction administration. Our headquarter is located in Hong Kong and supported by regional office in Mainland China.

Driven by a passion for art, architecture and design, a group of experienced and enthusiastic architects first established the design practice back in 1997. Since then, Amasia has successfully completed many quality developments in Hong Kong and various major cities in China. Today, at Amasia, we continue to strive for innovative design and uphold our corporate culture for high quality professional service.
