## WHY YOU SHOULD ATTEND?

The Sustainable Urban Infrastructure Conference is an ideal opportunity to obtain the latest information on major projects from an investment, planning, design and construction perspective.

A leading panel of industry leaders will deliver high level presentations and expert analysis on project financing, partnering options and contractual and legal issues.

This conference is a unique opportunity for anyone involved in the lifecycle of large scale infrastructure and urban development projects to not only learn about the latest developments, but also network with government representatives, financiers, major infrastructure corporations, developers, urban planners, architects, consultants and contractors involved in these exciting projects.

Now in its third year already the Sustainable Urban Infrastructure has become a must attend event for public and private sector alike.
