 - HKIA Young Architect Award 2013 Recipient
- Ms. Sarah MUI
 - HKIA Young Architect Award 2015 Recipient
- Ms. Josephine WAI
 - Representative of Asian Cultural Council, Hong Kong [Co-organizer]

Revitalization of Bishop Hill Underground Cistern

BACKGROUND

- Demolition of an underground reservoir that is believed to have been completed in 1904 was suspended after online images sparked public calls to preserve it as a heritage site. The project scale, the use of materials and its authenticity contribute to the uniqueness of this subterranean heritage.

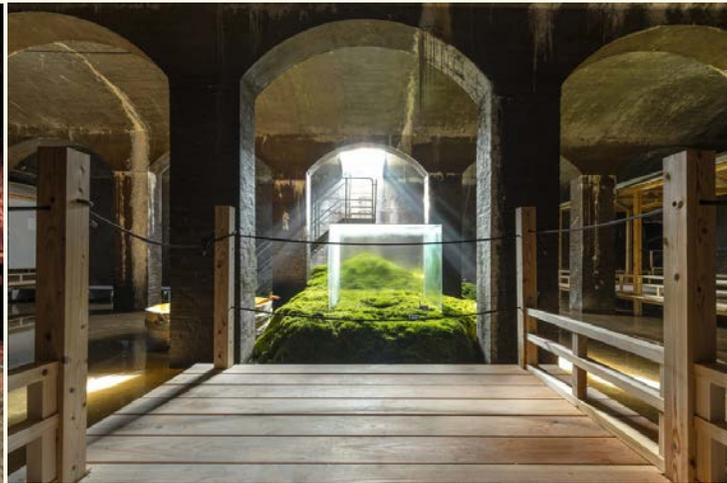

BACKGROUND

- According to the Water Supplies Department, Antiquities and Monuments Office has inspected the area and will conduct further assessments. From 1996 to 2000, AMO conducted a territory-wide survey on the buildings in Hong Kong built before 1950. Some 8,800 buildings were recorded, and 1,444 of them were selected for a more in-depth survey in 2009.

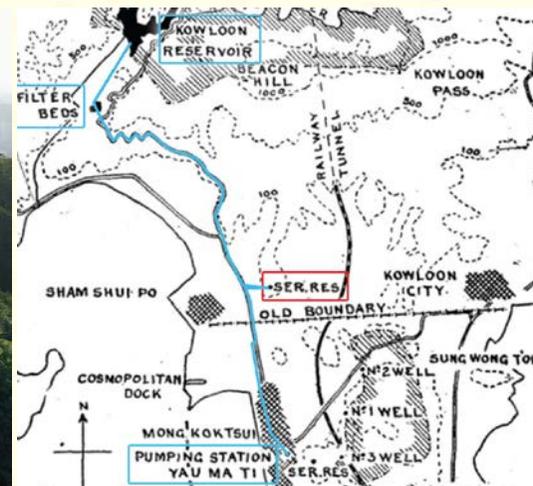

THEME

- How a heritage building should be re-examined considering both preservation and revitalization?
- Should the preservation of a heritage building be merely a ‘freeze of time’?
- What can be done to extend the life of a heritage site so it can always be ‘at the time’?

YOUR VISIONS

- How heritage site could be re-examined;?
- Promote co-existence of building and nature;?
- Celebrate the depth and characteristics of Hong Kong's infrastructure while contributing to the general public?
- And more...?

PROGRAMME

- propose your own programme(s) to demonstrate your design vision!
- You may refer to Revitalisation Historic Buildings Through Partnership Scheme for inspirations (<https://www.heritage.gov.hk/en/rhbtpt/about.htm>)
- You may also propose any creative functions or events for the general public.

SCHEDULE OF ACCOMMODATION

propose a schedule of accommodation to suit your proposal

LOCATION

- The Bishop Hill Underground Reservoir shall be primarily taken as the project site.
- It is open to the participant to extend your proposal to its surroundings.
