- **Ms. Josephine WAI** Representative of Asian Cultural Council, Hong Kong [Co-organizer]

HKIA YAA Jury Panel has the final decision on the category and numbers of HKIA Young Architect Award.

# Revitalization of Bishop Hill Underground Cistern

## DESIGN PROPOSAL

### THEME

#### 1.0 BACKGROUND

Demolition of an underground reservoir that is believed to have been completed in 1904 was suspended after online images sparked public calls to preserve it as a heritage site. The project scale, the use of materials and its authenticity contribute to the uniqueness of this subterranean heritage.

According to the Water Supplies Department, Antiquities and Monuments Office has inspected the area and will conduct further assessments. From 1996 to 2000, AMO conducted a territory-wide survey on the buildings in Hong Kong built before 1950. Some 8,800 buildings were recorded, and 1,444 of them were selected for a more in-depth survey in 2009.

While this service reservoir is not on this list, the grading process may take three months, if not more, this call for proposals aims to support this process by concurrently collecting views from young professionals and showcasing their design visions.

#### 2.0 THEME

How a heritage building should be re-examined considering both preservation and revitalization? Should the preservation of a heritage building be merely a 'freeze of time'? What can be done to extend the life of a heritage site so it can always be 'at the time'?

Participants have to submit design proposal for the Revitalization of Bishop Hill Underground Reservoir, which aims to showcase how heritage site could be re-examined; promote co-existence of building and nature; and celebrate the depth and characteristics of Hong Kong's infrastructure while contributing to the general public.

#### 3.0 PROGRAMME

Participants are to propose any programme(s) to demonstrate his/her design vision.

#### 4.0 SCHEDULE OF ACCOMMODATION

Participant proposes a schedule of accommodation to suit his/her proposal.

#### 5.0 LOCATION

The Bishop Hill Underground Reservoir shall be primarily taken as the project site. It is open to the participant to extend his/her proposal to its surroundings.
