| 6. | Member-In Charge, HKIA – 'Alvar Aalto" Exhibition Committee | 1995 |

Candidate's personal statement:

Dear Fellow Architects,

2019-2020 is a challenging time for the World, for Hong Kong and for our Profession.

Our City and the World has been experiencing, in the past year, unprecedented changes. Especially at this challenging time, our team of Council Members, together with our fellow members must unite and stay trusting and supporting to each other, in order to pass through the turmoils, not only for our profession, but also for our City.

As an Architect, I have witnessed the power of Teamwork and Trust for the success of projects. Same here, we need to make use of the HKIA platform to gather our forces and effort to achieve Architecture Excellence, to realize the ultimate duty of an Architect, that is, to 'Build for a Better Life'.

As the Vice-President in the past 2 years, I have realized my wishes of creating more Design Competitions for the revelation of our talents, to recognise our own brilliant achievements in the form of HKIA Gold Medal, and to strive for a Graphics Revamp, to create a new visual image with consistency that our profession is proud of. We have initiated the Facebook Live Chat so that we can be more connected with members. To face the epidemic, HKIA has created the COVID 19 Task Force where we can assist as a profession to express our care to people in need and society, and contribute through members' generous donations and the promotion of the Healthy Building Initiative with the other institutes.

At this challenging time, I decide to run for Council. I concur with the vision of Doughnuts Economics that we need to create a Safe and Just space for Humanity, with respect to both the Ecological Ceiling and Social Foundation. As Architects, our works should be assisting to create these values to society.

For our profession, we need to elevate our professional knowledge and re-invent ourselves to a position in society that our presence and value are being acknowledged and to make a difference. We need to create a sustainable business environment and open up more opportunities for our members and practices. We need to give hope to our young members.

Hong Kong is going through a transformation stage, so are we. Whether this transformation is an elevation, it is up to us.

Let us gear up, unite for Progress, for Planet, People, Prosperity, Peace and Partnership!

Yours Sincerely,
Corrin
