Candidate's personal statement:

The practice of architecture continues to pass through a challenging environment, it is important to align commitments to a broader benefit of fellow and young members as a whole. We need to work together with a common goal, uniting our force to promote our members by utilizing the resources within HKIA. Equality of opportunity for every members in HKIA is extremely important. Every single voice and opinion of members shall be taken for the betterment and improvement of HKIA.

I am looking forward to taking the challenge again and to pursue more opportunities for our members, by promoting more cross platforms activities between board and committee, bringing the members closer together to challenge, support and benefit each other. I will carry on my contribution in Board of External Affair, Board of Local Affair and committee such as Arcasia/CAA and Environmental Sustainable Development, to help fostering and maintaining the connection between HKIA with a foreign counterpart, for the benefit and continue development of HKIA and its fellow and young members.

I believe the only way to serve HKIA is to serve his fellow and young members sincerely, honesty and integrity. I am sincerely seeking your support to vote for me as Council Member again. I believe that I can make a valuable contribution to our institute and ultimately to our community.

Lastly, Unity for Progress.
