Candidate's personal statement:

My Mission

During my past few years of services in HKIA council and Young Member Committee, I found that the Institutes can provide more assistance to our members for their career development. Either Knowledge and New Opportunities to our members.

My Proposal

1. To create a more dynamic communication platform so as to improve communication between HKIA members and the Institutes, instead purely rely on HKIA daily.
2. To create a more Collaboration platform with various organizations such as the Trade Development Council, Economic, and Trade Office, etc. It can provide Exhibition and Promotion opportunities to build up their Portfolio.
3. To create more real project Design Competition opportunities to our SMART Practices so as to build up their portfolio.
4. To Initiate a Working Holiday scheme or Internship scheme within Asia.
5. To provide a wide variety of Workshop to our Young Members so as to strengthen their Professional skills and Senior Architects can succeed their skills to the next generation.
6. To invite more Oversea Speakers to provide more varieties CPD to our members and explore the New technology from overseas.
7. To provide a more User-Friendly Open BIM working platform, so as to avoid the Oligopoly situation of certain software.
8. Provide HKIA Handbook to PA exam candidates, so as to provide a more clear indication of Examination syllabus, Clear guideline of the Exam requirements, which can help the candidates to prepare PA exam more effectively.
