8. Panel Member, HK Film Censorship (2005–2007)
9. Exhibitor, HK Pavilion of the Venice Biennale (2018)

Candidate's personal statement:

My Beliefs

Architects shall contribute in our professional way to our community. Our works shall improve the urban space and enhance the living environment. We shall also promote our works to the public and educate them to appraise and respect good architecture.

Unity for Preparedness

Better collaborations bring us a better life!

My Missions

To explore more opportunities to our Members

Having established my own architectural practice in HK since 2004, I have experienced the ups and downs of our practicing environment. I also observed the changes of the roles of architects in the community in these years. At the same time I see the importance to expand our market opportunities create increase architects' involvements in our industry. Architects have to equip ourselves for changes. Being the current Chairman of the Board of Practice, I have set up different task forces to enhance job opportunities for our registered practices, optimizing systems to mitigate the fee diving malpractices as well as setting up systems to support our registered practices on business disputes. In future I would like to continue to do more to enhance our professional practices.

To promote our Members works in HK and internationally

From 2011 onwards, I have joined the Board of External Affairs representing HKIA to attend various international meetings and conferences especially on ARCASIA activities. During the years, international opportunities had been obtained for example the students jamboree program, design competitions, training workshops, etc. We have also setup a legal entity for the ARCASIA Emergency Architects Ltd. (AEA) in Hong Kong in 2019 to create opportunities for our architects to work on disaster preparedness and increase their international explorations.

In 2019, I was elected as the Deputy Chairman (2020-2021) and the Chairman (2022-2023) of the ARCASIA Committee on Social Responsibilities (ACSR). I hope this involvement can further facilitate us to strengthen our members relationships with our architects in the world.

To strengthen the bondage and collaboration between Members

The attack by natural disasters and fatal disease is unpredictable. In 2018 after the attack by Typhoon Mangkhut to HK, I have joined the volunteer works organized by HKIA to help cleaning the affected areas. During the current Covid 19 situation, I have also worked with other volunteer members to team up to use our professional knowledge to help the school on hygiene checking as well as calling for donation of computers for students' online learning.
