## **CANDIDATE'S PERSONAL STATEMENT**

It has been a challenging time for our profession in the past few years experienced by all sizes and types of architectural firms. At the same time, we also see opportunities in the new economy, as well as the revitalization and new development in our city. Are we ready for the future? The business of architecture must continue to evolve and adapt to an ever changing social and commercial environment. I want to be part of the HKIA Council to help shaping its future for the better. That is the reason why I am standing for the Council to run for the Office Bearer post as Honorary Treasurer.

In the past two years, I have been serving as the Honorary Secretary in the Council. It was a delightful experience for me to gain ample knowledge on the operations of the Institute and the Secretariat Office. As promised at the beginning our term, we are dedicated to enhancing the communications with our members and the general public, and to promoting the quality service to our members. With the joint efforts with the Office Bearers and Council Members, we have implemented a number of improvements to the Secretariat team structure as well as the physical environment of our HKIA Premises. We have also created a number of communications channels including President's Chatroom, engagement meetings with our member firms, and social media platforms to showcase our achievements to the society.

It would be an honour if I could be offered an opportunity to continue serving in the coming term of Council in further aspects of works with my humble experience.

If elected, I will:

- Engage with the Council and General Members to brainstorm on the Road Map of the Institute
- Review for a more healthy and sustainable financial structure of the Institute
- Strive to ensure that our architectural profession is seen as a key-leader in the creative and construction industries
- Endeavor to make our profession more equal, diverse and inclusive
- Enhance communications with architectural practices and practitioners, particularly the small practices and young employees, to let their voices be heard
- Elevate the visibility of our profession in the general public realms

I would be honoured to serve on the Council and would take pride in helping to develop the profession that I am passionate about and believe is integral to our society.
